100+ Management Models

model is composed of components of well -known quality management models . This model is applicable to

all areas of quality assurance and all types of organizations. It is called an object-oriented model, because objects play a central role in it. Keywords: management model, quality, quality assurance.

A management model for quality - United Nations

It is management that regulates man's productive activities through coordinated use of material resources. Without the leadership provided by management, the resources of production remain resources and never become production. Management is the integrating force in all organized activity. Whenever
