A simple Google search (using the keywords algorithms 4th ed solutions) led me to 2 relevant links on the first page result. I'll leave it as an exercise for you to do the search. I'll leave it as an exercise for you to do the search.

performance of algorithms, using the models to develop hypotheses about performance, and then testing the hypotheses by running the algorithms in realistic contexts. Breadth of coverage. We cover basic abstract data types, sorting algorithms, searching algorithms, graph processing, and string processing.

I have managed to find the solutions. They are not official but answers seems to be correct. However these solutions are in very bad shape :-Zip file with many PDFs. Each properly marked. PDF file is password protected, but zip file has a file for password. Its 'birds', if you are lazy to open the file :P; Not every solution is solved.
