The Benjamin Graham formula is a formula proposed by investor and professor of Columbia University, Benjamin Graham, often referred to as the "father of value investing". Published in his book, *The Intelligent Investor*, Graham devised the formula for lay investors to help them model growth formulas in vogue at the time of the formula's publication.

Value investing is an investment paradigm that involves buying securities that appear underpriced by some form of fundamental analysis. The various forms of value investing derive from the investment philosophy first taught by Benjamin Graham and David Dodd at Columbia Business School in 1928, and subsequently developed in their 1934 text *Security Analysis*.
