Logical positivism and logical empiricism, which together formed neopositivism, was a movement in Western philosophy whose central thesis was verificationism, a theory of knowledge which asserted that only statements verifiable through empirical observation are cognitively meaningful. The movement flourished in the 1920s and 1930s in several European centers.

### Logical positivism - Wikipedia

Logical positivism and logical empiricism, which together formed neopositivism, was a movement in Western philosophy whose central thesis was verificationism, a theory of knowledge which asserted that only statements verifiable through empirical observation are cognitively meaningful. The movement flourished in the 1920s and 1930s in several European centers.

### Typology - music.163.com

The term typology is used in many fields. For example are Carl G. Jung's psychological types famous ( ). In Library and Information Science (LIS) is typology used, for example about document typologies. Web of Science, for example, distinguishes between article, book review, letter, review, proceeding paper and other types of documents.
