This research investigated the link between ethical leadership and performance using data from the People's Republic of China. Consistent with social exchange, social learning, and social identity theories, we examined leader-member exchange (LMX), self-efficacy, and organizational identification as mediators of the ethical leadership to performance relationship.

Linking ethical leadership to employee performance: The

Leadership is widely seen as having an important role in fostering ethical conduct in organizations, but the ways in which the actions of leaders intersect with formal ethics regulation in shaping conduct have been little researched.
