RTL-SDR and GNU Radio with Realtek RTL2832U [Elonics E4000/Raphael Micro R820T] software defined radio receivers. Originally meant for television reception and streaming the discovery and exploitation of the separate raw mode used in FM reception was perhaps first noticed by Eric Fry in March of 2010 and then expanded upon by Antti Palosaari in Feb 2012 who found that these devices can output ...

Análisis de requisitos del software. En esta fase se analizan las necesidades de los usuarios finales del software para determinar qué objetivos debe cubrir. De esta fase surge una memoria llamada SRD (documento de especificación de requisitos), que contiene la especificación completa de lo que debe hacer el sistema sin entrar en detalles internos.

Software engineering  
Software engineering is the application of engineering to software development. It involves the design, development, testing, and maintenance of software systems. The process typically includes requirements analysis, system design, coding, testing, and deployment. Software engineering aims to ensure that software systems are reliable, efficient, and meet the needs of their users.
