We'd like to share more detail about the AWS service disruption that occurred this past weekend in the AWS Sydney Region. The service disruption primarily affected EC2 instances and their associated Elastic Block Store (EBS) volumes running in a single Availability Zone.

Summary of the AWS Service Event in the Sydney Region

Resources and services offered on the cloud have rapidly changed in the last decade. These changes were underpinned by industry and academia led efforts towards realising computing as a utility. This vision has been achieved, but there are continuing changes in the cloud computing landscape which this paper aims to present.
