Time travel is the concept of movement between certain points in time, analogous to movement between different points in space by an object or a person, typically using a hypothetical device known as a time machine. Time travel is a widely-recognized concept in philosophy and fiction. The idea of a time machine was popularized by H. G. Wells' 1895 novel *The Time Machine*.

In modern politics and history, a parliament is a legislative body of government. Generally, a modern parliament has three functions: representing the electorate, making laws, and overseeing the government via hearings and inquiries. The term is similar to the idea of a senate, synod or congress, and is commonly used in countries that are current or former monarchies, a form of government with ...

John Adams (30 October 1735 – 4 July 1826) was an American lawyer, author, statesman, and diplomat. He served as the second President of the United States (1797–1801), the first Vice President (1789–1797), and as a Founding Father was a leader of American independence from Great Britain. Adams was a political theorist in the Age of Enlightenment who promoted republicanism and a strong ...
